JURISDICTION AND VENUE

8. This is an action for patent infringement arising under the patent laws of the United States, 35 U.S.C. § 1 *et seq.*, including but not limited to 35 U.S.C. § 271.

9. This Court has subject matter jurisdiction over this controversy under 28 U.S.C. §§ 1331 and 1338(a).

10. This Court has personal jurisdiction over Defendants because each Defendant has established minimum contacts with the forum State of Delaware.

11. All of the Defendants are subject to personal jurisdiction in Delaware under, at a minimum, the Delaware Long-Arm Statute, 10 Del. Code § 3104, thereby submitting themselves

to the jurisdiction of the Delaware courts because they have transacted and continue to transact business in the State of Delaware, directly and/or through third parties, by: manufacturing or assembling, importing or causing to be imported, using or causing to be used, offering to sell or causing to be offered for sale, selling or causing to be sold directly, through intermediaries and/or as an intermediary, a variety of mobile phones and mobile devices that infringe the patents-in-suit to customers in the United States, including customers in Delaware, and will continue to do so unless enjoined by this Court.

12. This Court has personal jurisdiction over TCL Communication and TCT Hong Kong in that TCL Communication and TCT Hong Kong have been and will continue to commit acts alleged herein as patent infringement in Delaware and elsewhere in the United States, including the infringing acts alleged herein, both directly, through one or more intermediaries, and/or as an intermediary. On information and belief, TCL Communication and TCT Hong Kong regularly import or cause to be imported large quantities of mobile phones and mobile devices into the United States for distribution throughout the United States, and in Delaware. On information and belief, TCL Communication and TCT Hong Kong are involved in the distribution of infringing mobile phones and mobile devices throughout the United States, including in Delaware, and intend for such products to be sold throughout the United States, including in Delaware. On information and belief, TCL Communication and TCT Hong Kong have caused and continue to cause injury and damages in Delaware by acts or omissions outside of this judicial district, including, but not limited to, utilization of their own distribution channels established in the United States and TCT US and TCT Inc.'s distribution channels in the United States, as set forth below, to ship or otherwise import a variety of products that infringe the patents-in-suit into the United States and into this judicial district while deriving substantial

revenue from services or things used or consumed within this judicial district, and will continue to do so unless enjoined by this Court.

13. This Court has personal jurisdiction over TCT US and TCT Inc. in that TCT US and TCT Inc. are incorporated and therefore reside in Delaware. Personal jurisdiction is also proper because TCT US and TCT Inc. have been and will continue to commit acts of patent infringement in Delaware and elsewhere in the United States, including the infringing acts alleged herein, both directly, through one or more intermediaries, and/or as an intermediary. On information and belief, TCT US and TCT Inc. regularly import or cause to be imported large quantities of mobile phones and mobile devices into the United States for distribution throughout the United States, and in Delaware. On information and belief, TCT US and TCT Inc. are involved in the distribution of infringing mobile phones and mobile devices throughout the United States, including in Delaware, and intend for such products to be sold throughout the United States, including in Delaware. The established distribution networks of TCT US and TCT Inc. consist of national distributors and resellers, and TCT US and TCT Inc. distribute or cause to be distributed infringing products to national retailers that have stores in Delaware. By shipping into, offering to sell in, using, and/or selling products that infringe the patents-in-suit in this judicial district, or by inducing or causing those acts to occur, TCT US and TCT Inc. have transacted and transact business and perform work and services in this judicial district, have contracted and contract to supply services and things in this judicial district, have caused and cause injury and damages in this judicial district by acts or omissions in this judicial district, and have caused and cause injury and damage in this judicial district by acts or omissions outside of this judicial district while deriving substantial revenue from services or things used or consumed within this judicial district, and will continue to do so unless enjoined by this Court.

14. Defendants' accused products in this case were available for purchase at stores within this judicial district up to and including the filing date of this Complaint. Such stores include, but are not limited to, the Walmart located at 1251 Centerville Road, Wilmington, DE 19808 and the Best Buy located at 4807 Concord Pike, Wilmington, DE 19803. Exhibit B is a receipt showing the purchase in Delaware on July 21, 2015, of an exemplary product at issue in this case, an Alcatel OneTouch Evolve 2, that was manufactured, imported, marketed, and/or sold or made available for sale by Defendants. Exhibit C includes photographs of the aforementioned Alcatel OneTouch Evolve 2, a product manufactured and imported into the United States by Defendants, which was offered for sale in the State of Delaware, and purchased in Delaware on July 21, 2015 at the aforementioned Best Buy. Exhibit D is a receipt showing the purchase in Delaware on July 23, 2015, of an exemplary product at issue in this case, an Alcatel OneTouch Pop Astro, that was manufactured, imported, marketed, and/or sold or made available for sale by Defendants. Exhibit E includes photographs of the aforementioned Alcatel OneTouch Pop Astro, a product manufactured and imported into the United States by Defendants, which was offered for sale in the State of Delaware, and purchased in Delaware on July 23, 2015 at the aforementioned Walmart. Moreover, additional Alcatel OneTouch mobile devices were available for purchase through interactive websites accessible in Delaware with delivery to an address in Delaware. Exhibits F and G are receipts showing July 21, 2015, purchase via www.amazon.com, of two exemplary products at issue in this case manufactured by Defendants for delivery to a location in Delaware on July 22, 2015. Exhibit H includes photographs of the Alcatel OneTouch Idol 3, which was purchased via the aforementioned interactive website. Exhibit I includes photographs of the Alcatel OneTouch Pop C9, which was purchased via the aforementioned interactive website.

15. Furthermore, most of these exemplary phones contain the names TCT MOBILE, TCT MOBILE LIMITED, TCT Mobile, Inc., and/or TCL COMMUNICATION LTD. on the phones themselves and/or in accompanying manuals. *See* Exs. C, H, I; *see also* Ex. U at 64 (user manual showing TCT Mobile, Inc. providing warranty on an Alcatel OneTouch phone sold in the United States), Ex. V at 62 (same), and Ex. W at 2 (same).

16. As set forth above, Defendants have committed and continue to commit acts of patent infringement in this judicial district, and have placed or have knowingly permitted placement of products, including infringing products, into the stream of commerce with the intent of serving the Delaware market as evidenced by Defendants' marketing, importing, selling and shipping, either directly or indirectly, such products into this judicial district, which has resulted in the introduction of such products into the Delaware market and sales of same in this judicial district. Accordingly, Defendants have purposefully availed themselves of the benefits of the State of Delaware such that exercising jurisdiction over Defendants would not offend traditional notions of fair play and substantial justice.

17. Venue is proper in this judicial district pursuant to 28 U.S.C. §§ 1391(a)-(d) and 1400(b).

TCL'S FAILURE TO ENGAGE IN GOOD FAITH NEGOTIATIONS

18. On December 15, 2014, IP Bridge wrote to TCL's CEO and Executive Director, Dr. Aiping Guo, and the IP Director of TCL's parent company TCL Corporation, Mr. Xing Zhou (also known as Mr. Steven Zhou). In this letter, attached as Exhibit J, IP Bridge presented an offer to license IP Bridge's patent portfolio covering W-CDMA, LTE, and related standards and modifications thereof (hereafter "W-CDMA and LTE standards"), which are global standards used in mobile telecommunications. IP Bridge's December 15th letter encouraged TCL to open

a dialogue on IP Bridge's offer to license the patents on fair, reasonable, and non-discriminatory ("FRAND") terms. Attached as Exhibit K is proof of delivery of IP Bridge's December 15th letter.

19. TCL never responded to IP Bridge's December 15th letter.

20. IP Bridge wrote a follow-up letter on January 26, 2015, again addressed to TCL's Dr. Aiping Guo. IP Bridge's second letter, like the first one, encouraged TCL to open a dialogue for negotiating a license to IP Bridge's patent portfolio on FRAND terms. The second letter, excluding enclosures, is attached as Exhibit L and proof of delivery is attached as Exhibit M.

21. TCL never responded to IP Bridge's January 26th letter.

22. IP Bridge wrote a second follow-up letter on February 27, 2015, again addressed to TCL's Dr. Aiping Guo. IP Bridge's third letter, like the two previous ones, encouraged TCL to contact IP Bridge. The third letter, excluding enclosures, is attached as Exhibit N and proof of delivery is attached as Exhibit O.

23. TCL never responded to IP Bridge's February 27th letter.

24. IP Bridge's counsel wrote a fourth letter on April 6, 2015, again addressed to TCL's Dr. Aiping Guo. IP Bridge's counsel's fourth letter demanded that TCL respond if it wished to remain eligible for FRAND rates to IP Bridge's patents. The fourth letter is attached as Exhibit P and proof of delivery is attached as Exhibit Q.

25. TCL never responded to IP Bridge's April 6th letter.

26. TCL's complete failure to respond to four separate letters across the span of four months represents a rejection of IP Bridge's attempts to negotiate in good faith with respect to the patent portfolio identified in IP Bridge's December 15th letter.

27. IP Bridge owns by assignment United States Patent No. 7,373,295, entitled “Speech Coder and Speech Decoder,” which was duly and legally issued on May 13, 2008. A certified copy of the ’295 patent is attached as Exhibit R.

TCL’s mobile phones and tablets that implement these standards infringe the IP Bridge Patents at issue in this case.
